THE DIFFERENCE IS **PERFECTION**

The Benefits Of Using Event-Deck

Extremely versatile, fully demountable, height adjustable, temporary staging system. A variety of modular shapes can be arranged in an endless number of configurations. Heights can easily be adjusted by simply using alternative leg lengths.

DESIGN

- Designed and manufactured exclusively by Staging Services Ltd.
- Unique locking system ensures no height differential between adjoining modules for a safe, seamless, performing surface.
- Accessories available to further increase the systems flexibility.
- Manufactured in a variety of modular shapes.

USAGE

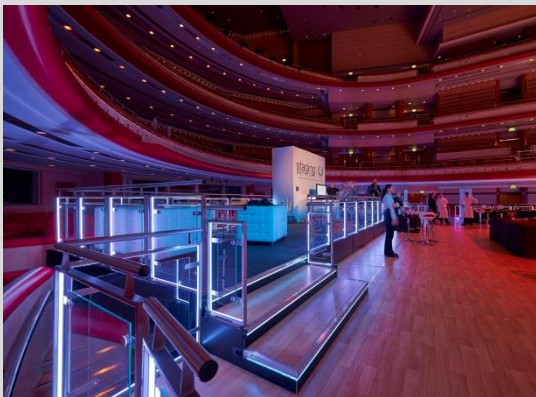

- Used in venues and facilities such as: schools, conferencing, sports, exhibition, theatre, marquees, retail.
- Perfect for performance stages, stage extensions, catwalks, seating tiers, viewing platforms & disability ramps. Choral & instrument risers
- Easy to create interesting stage shapes at varying heights.
- Can be used indoor and outdoor.

BUILD QUALITY & ACCESSIBILITY

- Very robust and well-engineered.
- 15 years of successful field product development and on-going.
- Stage legs manufactured from standard aluminium tube – which is easily available nationwide.
- Standard scaffold fittings can be used for bracing stage legs as and when required.
- Stage modules and accessories available to purchase or to hire from Staging Services Ltd.

COMPLIANCE

- Complies with stringent regulations required by the NEC and other similar bodies.
- Meets industry standards as specified in THE TECHNICAL STANDARDS FOR PLACES OF ENTERTAINMENT.
- Design calculations and test report data available.
- Instruction by trained technicians, assembly manuals and videos available.
